Cadence Classroom Teaching Licenses are subject to **all** of the terms of the existing Cadence-EUROPRACTICE End User Agreement ("EUA") already signed by your Institution. In addition, the Cadence Classroom Teaching Licenses may only be used in a classroom environment for the teaching and instruction of bona-fide registered students on undergraduate or postgraduate taught courses. The use of these licenses for any other purposes, including research or teaching of short courses for industrial delegates, is strictly forbidden.

Cadence has absolute discretion as to whether or not to approve each request for Classroom Teaching Licenses. Any approval to use Classroom Teaching Licenses shall expire on the 30th September of each year. (In the case of an <u>initial</u> submission after 1st July then the right to use Classroom Teaching licenses shall be granted until 30th September of the following year)

Cadence and EUROPRACTICE will consider any proper request from an Institute that is already Cadence customer (via EUROPRACTICE) to use Classroom Teaching Licenses. This request is subject to the submission of a satisfactory description of how the licenses are to be used and, in the case of an application to extend approval for a further year, also include full details of the usage during the previous period.

Should the main Cadence-EUROPRACTICE End User Agreement be breached in anyway, the EUROPRACTICE membership of your institution terminated, or payment of invoiced fees not received, then the approval and right to use these Cadence Classroom licenses will cease with immediate effect.

Declaration:- Cadence Classroom and Teaching Licenses

I understand and agree to the above terms and wish to request approval for Cadence Classroom Teaching License as detailed on this order form. I have also submitted a description (by email to MicroelectronicsCentre@stfc.ac.uk) of how these Classroom Teaching Licenses will be used within my institution. This document is titled:
